NEWBERG, OREGON, TUESDAY, APRIL 23, 1918

NUMBER 10

PACIFIC BEATS MAC IN FIRST GAME

Final Score for First Game of Season 7 to 5

Last Friday afternoon the Pacific nine went to McMinnville for the first base ball contest of the season. The game was called at four-thirty with Pacific at the bat. Things did not go very lively at first. Both sides put men on bases but failed to bring in a run.

Then in the third inning Ezra Hinshaw started things with a two base hit. He had bad luck in sliding to second for he sprained his ankle so as to make things look pretty serious. But Hinshaw did not quit because of a sprained ankle although some one else had to do the running for him for the rest of the game. Elliott followed in Hinshaw's footsteps and made a two base hit Baron ran for Hinshaw and scored. Carter hit out a two bagger and Elliott crossed the plate safely. The bases were then filled and things looked very serious for "Mac," but the last out was made before there was another chance to score.

Hinshaw had difficulty pitching the third inning and "Mac" immediately took the advantage given her and brought in three runs.

In the next two innings Mac ran in one more score, but Pacific did not like the looks of the score with Mac two points in the lead Harold Hinshaw got a hit and later Haworth reached first with Hinsnaw on third. Hinshaw scored on Elliott's hit, and Elliott and Haworth safely crossed the plate when Carter hit for two bases. "Mac" followed with a run and tied the score.

During the seventh inning no scores were made but in the eighth Ezra Hinshaw started things with a two base hit and Elliott followed with a three bagger. Baron ran for Hinshaw and again scored. Elliott scored later in the inning leaving the score seven to five, with P. C. holding the big end of the score. The ninth inning quickly ended without either side scoring.

The game was very good for the first of the season. The home team played very good ball. Hinshaw struck out ten men and the Mac pitcher struck out eleven.

PACIFIC WINS SECOND PLACE IN CONTEST

Mary Pennington Represents P. C. at Eugene.

Mary Pennington representing Pacific in the State Prohibition Contest last Friday evening, won second place. The contest was held at the Eugene Bible University at Eugene. Miss Pennington was accompanied by her father, President Pennington, to the contest.

Owing to the fact that Pacific College was not represented in the contest last year Miss Pennington was required to speak first which is by long odds the hardest place on the program. Although only a Freshman Pacific's orator competed very favorably with the other speakers, who are higher classmen, and won favorable commendation from all.

First place was won by Miss Faye Bolin, of Willamette University. She received three firsts in thought and two firsts in delivery. Aside from first place the other places were very closely contested. Only five schools were represented. The result of the contest was as follows:

First place—Faye Bolin, Willamette "U."

Second place—Mary E. Pennington, Pacific College.

Third place—Chris. J. Benny, Eugene Bible "U."

Fourth and fifth (tied)—Clyde Thurston, "U" of Oregon; Frederick Parkes, McMinnville College.

The interstate contest will be held at Willamette University this year and Oregon will be represented by the winner of Friday's contest, Miss Faye Bolin. Next year the State Prohibition Contest will also be held at Salem and the president who was elected for the next year is Miss Fay Wells, of Willamette.

SENIORS IN CAPS AND GOWNS

Monday morning, April fifteenth, after every one had assembled in the chapel the Seniors marched solemnly in in their caps and gowns and made up in dignity what they lacked in numbers. The students were sorry that Newhouse, Edwards and Keeney were not there also to appear in their robes of dignity also.

EX-EDITOR EDWARDS NOW MARRIED MAN

Lloyd Edwards and Miss Stella Goyne Wedded Apr. 14

Lloyd Edwards, former editor of the Crescent and Miss Stella Goyne, of Tillamook, were quietly married after church Sunday, April 14, by Mr. Jessee Edwards at the Edwards' residence on College street. Mrs. Jesse Edwards, Mrs. Clyde Dawson, sister of the bride and Lowel Edwards of Tillamook were the only persons present at the ceremony.

Instead of taking the one-fifteen train as every one expected, the couple drove to Springbrook in Mr. Edwards' runabout, taking the train there for Portland. Their precautions proved useless however, for they were plentifully showered with rice both at Springbrook and in Portland, where a number of P. C. students were attending a convention.

Mrs. Edwards is a very popular young lady in her home town. The past year she has been teaching in the Tillamook schools.

Mr. Edwards of this year's graduating class was one of the most popular men in school and especially prominent in all school activities. He played center on the basket ball team; was a member of last year's winning debate team; president of the student body and editor of the Crescent. He is an electrician in the Vancouver ship yards at present.

FRANCES ELLIOTT FOR MAY QUEEN

P. C. Puts up Nominee.

Pacific has the best, prettiest, most popular and daintest candidate for the Newberg May Queen. Frances Elliott was unanimously elected Tuesday by the student body to be the college candidate for this honor. Miss Elliott is well known in Newberg and every one likes her. She is a splendid worker and of course for that reason all the business men of the town respect her. She is popular because of her personality and her beauty. The students are all back of her and will see her elected or know the reason why.

PRESIDENT GIVES INTELLIGENCE TEST

General Information of Student Body is Probed

For the past two or three years President Pennington has made out a list of from fifty to a hundred questions which he calls a "General Intelligence Test." The questions are taken from various fields and cover a wide range of information. The whole student body is supposed to take the test and from the results an average of the general intelligence of the student body is obtained.

The test for this year was given April second. After chapel the remaining classes of the morning were dismissed and the time was spent in answering the following questions.

1. What is Hooverizing?
2. What is a Zeppelin?
3. If two men can dig a ditch 160 rods long in two days working 8 hours a day, how many hours a day will six men have to work to dig 960 rods of similar ditch in three days?
4. Who is Pershing?
5. What is now necessary to achieve national prohibition?
6. What is the selective service act?
7. What is a conscientious objector?
8. What is a boot-legger?
9. What is a blind-tiger?
10. What is Tammany?
11. Who is Schumann-Heinck?
12. Who are the Bolsheviki?
13. What is the Congressional pork-barrel?
14. What is rag time?
15. What is meant by "Ben-son's Iron Men"?
16. What is the Red Triangle?
17. What is a Shakespearean sonnet?
18. For what purpose is spruce in great demand at present?
19. What is a concrete boat?
20. What is a fabricated boat?
21. Who was Homer?
22. What is secondary education?
23. Who was Liliokalani?
24. Who is Emma Goldman?
25. What is a creed?
26. When does the sun "cross the line"?
27. What is camouflage?

DO YOU HAVE IT?

A great deal is said these days about loyalty. We hear of loyalty to our God, our nation, our state and our home. But there is a loyalty that should not be forgotten by the students of P. C. That is loyalty to our own school. This is not merely the kind of allegiance and love that shows itself by yelling our heads off at some winning basket ball game, but rather the kind that impels us to work on the Y. M. or Y. W. cabinets, or the kind that sends us to the athletic field, although the prospects are very bright for a losing baseball nine. The loyalty can be brought out and put to work helping to make a better team, by making some fellow work harder for his position, or by helping to develop a winning tennis team because the players have been made by many days of hard steady practice. Is this kind of loyalty encouraged and developed by lying in the shade near the diamond and tennis courts and making sarcastic or harmful criticisms of those trying to play? Could not this loyalty be better fostered by trying out for the team or at least by giving the advice to some one in personal conversation?

MISS McCracken Gives Lecture

Thursday, April 18th, Miss McCracken spoke of the food situation in this and other countries. In most countries regulation of rations has become necessary to conserve the food supply. The resources of the U. S. for various reasons are larger than those of other countries so that the burden of feeding the world becomes America's. Since the extension lectures have been discontinued, Miss McCracken gave hers at the chapel hour.

GOLD "Q" CLUB ELECTS OFFICERS

Annual Banquet to be Omitted This Year.

The Gold "Q" Club elected the following officers for the ensuing year: Howard M. Elliott, President; Alfred R. Haworth, Vice President; Clinton Baron, Secretary; and Harold E. Hinshaw, Treasurer.

By a unanimous vote the Club decided to omit the annual banquet this year. This banquet has held a very large place in school life in former years and has been looked forward to with a great deal of pleasure by those fortunate enough to be eligible. It has been a time of great joy not only to those who are delighted with a "huge feed," but also to those who like oratory and eloquence sent out through that happy medium known as after dinner speaking. On account of the shortage of foodstuffs and the need of conservation, the banquet is to be omitted this year.

EXTENSION LECTURES

The 2nd and 9th of this month Prof. Perisho gave two very instructive lectures, his subject being "The Chemical Independence of the United States." He discussed four of the important chemical products and the problem of their production in the United States in view of the fact that before the war we had been buying practically our entire supply from Germany, because she could manufacture and deliver them here cheaper than we could make them ourselves.

The dye famine which we experienced at the beginning of the war was overcome by the manufactures of coal tar, who make from this, besides aniline dyes, benzine, carbolic acid, fine perfumes, and saccharine, a substance several hundred times sweeter than sugar.

He said that Thomas Edison was one of the first to feel the sulfuric acid shortage as he used it to harden his phonograph records; and as is typical of him, he set up his own plant and is now making all the sulphuric acid he needs. This industry is increasing rapidly.

The potash supply being cut off by the war forces us to seek other methods for obtaining this valuable product. Sea plants contain large quantities of potash and as soon as economical methods can be discovered for extracting it, our chemical independence will be reasonably assured.

MRS. KERRY IN RECITAL

Mrs. Katherine Glen Kerry, assisted by Mrs. Hull gave a vocal recital last Friday evening at Wood-Mar Hall. It was enjoyed by about 150 people and \$50 was netted to the local Red Cross. Before her marriage Mrs. Kerry had charge of the musical department of Pacific College, and she has many warm friends here. Mrs. Kerry has a beautiful voice of wonderful depth and clearness. After the program a reception for Mrs. Kerry was held. Many old friends and pupils met her again for the first time in many years. Mrs. Kerry gives her time and her talents to the Red Cross work, and this community surely feels very grateful to her for coming to Newberg.

Y. M. WITHOUT LEADER

Last Wednesday after a Bible reading from the Psalms, since the speaker could not be present, the Y. M. meeting was left open. Several took part in a prayer service. Some very sincere testimonies were then given—the kind which make one feel their sincerity. Several spoke of the benefit there is in service and the blessing in earnest prayer.

AMONG OURSELVES

The Ladies Auxiliary cleared something over \$45 at their sale last Saturday.

Prof. Weesner in astronomy class: "You may study the rest of this lesson on the moon."

Kenneth Tamplin spent two very enjoyable evenings with his brother, Carroll, at the Boy's Dorm.

Frank Grieve's "if you don't like it, you know what you can do" is becoming very well known. Frank might find another phrase, or clause, to use in its place.

Ruth Killen has returned to her home in Centralia, Washington where she will finish the semester in the high school there. Every one misses Ruth's pep.

"Mixed" doubles are becoming quite popular now-a-days. Just who they are is not known to everybody however. Further information may be acquired from Alfred Terrell and Bellvin Vincent.

Olive Johnson lead the Y. W. meeting April 3. As President she outlined her policy for the coming year and read the last chapter of Galatians, emphasizing the admonition to "be not weary in well doing, for in due season ye shall reap, if ye faint not."

Mildred Benson and Ralph Knight are not always dignified. This just to prove it. Last Saturday while in Portland, when the occasion seemed to demand it, they threw discretion to the winds, let the rain drops completely melt their dignity and ran for two blocks just to catch a street car.

Several of the college students were the guests of Mrs. F. A. Morris Saturday evening, April 14. Mrs. Morris was entertaining in honor of her niece, Miss Catherine Bogard. The guests were Mearle Sanders, Pearl Moulds, Alfred Terrell, Belvin Vincent and Alfred Haworth.

The students who had represented Pacific in forensics were awarded their gold "Q" pins in chapel April 4. Those receiving the awards were Mary Pennington who represented P. C. in the State Oratorical Contest at Salem and Ezra Hinshaw and Harold Lee who defeated McMinnville College in debate. President Pennington presented the pins for the student body. These will probably be the only awards of the kind made this year.

The dorm girls invited themselves out to dinner last Saturday evening. They went out to the little oak woods near the cannery. There at half past six they sat down upon an antiquated comforter and ate barley bread sandwiches, deviled eggs and currant jelly. During the rest that "this exercise" necessitated, Pearl Moulds entertained by reading testimonials from the "Pa'ouse Republic." Thereafter all joined in an animated discussion of the "Nangel wings," in the sky. When they had sung seven verses of "Mary Had a Little Lamb," they climbed the fence and went home.

A farewell service for Harold Hinshaw who is soon to leave for France, was held at the First Friends church, Portland, on April 7. The present task confronting the Friends was presented by Olive Johnson in her oration on the reconstruction work. Mr. Milo P. Elliott told of the work being done by the American Friends. Harold Hinshaw was asked to tell why he was going to France. His reason was,—because of the need and the double call; that of our country and of our God. A beautiful Friends service flag containing one star, with space for more, was dedicated and hung. Subscriptions for the work were then taken, after which Harold Hinshaw closed the services with prayer.

A very close and exciting game of base ball was played on the college campus Saturday the sixth of April. It was the climax of the Newberg celebration opening the Third Liberty Loan campaign. The married men came out victors by the close score of ten to eight. The single men's team were all college boys. Howard Elliott pitched a good game and held the "Big Leaguer's" to few and

scattered hits. The married men had the aid of "Billy" Sullivan, "Paddy Crietz" and "Ironsides" McKinney and even then could not be sure of a victory until the last half of the ninth inning when the game was really won.

The Y. W. C. A. girls received a message from the National Y. W. C. A. last Wednesday through the reading of some sketches taken from the Association Monthly. Nora Hendricks led the meeting. Gladys and Vera Jones sang a very pleasing duet.

PRESIDENT GIVES TEST

Continued from page 1

28. Who wrote Robinson Crusoe?
29. Who was Frank Gotch?
30. Who was Rokin?
31. What is a "chinook?"
32. What does 'skookum' mean?
33. Who is Trotsky?
34. What is "overhead?"
35. Who is Secretary of War of the U. S.?
36. Who is Secretary of the Navy?
37. What is mohair?
38. What is a vampire?
39. What is a tip?
40. What is a fish wheel?
41. What is a khaki?
42. What is a half Nelson?
43. Why should a tree be pruned?
44. Who is Bolo-Pasha?
45. Who was George Fox?
46. What does W. S. S. mean?
47. Would you introduce a man to a woman or a woman to a man? Always?
48. What is demurrage?
49. Name all the former presidents of Pacific College.
50. What is the difference between lock-stitch and chain stitch?

Several days later President Pennington gave some of the results of the test. The highest grade 89½ was made by Harold Hinshaw, '19, and the next highest, 89, by Harold Lee, '21. The average of the whole school was 52.27 per cent. The women averaged 49.8 per cent and the men 59.79 per cent, which delighted the latter greatly.

President Pennington also gave some of the answers as found on some of the papers, many of which were both strikingly original and very amusing. Tammany was defined as a "disease which people in Africa got from a minute insect;" a half Nelson was given on one paper as "a woman who married a man named Nelson;" on another, "a person who was half as brave as Nelson." A Shakesperian sonnet was "a person who liked Shakespeare." Frank Gotch was given variously as a great general in the present war, an artist and an author.

LATEST MAGAZINE OUT

A magazine program was presented at Trefan April 10. The editorial, written by Olive Johnson voiced the patriotism of Pacific College telling how the students have dug into their pockets in the various drives for war relief funds and how the college has sent several of her boys to France.

The fiction section was very ably handled by Margaret Hodson. The only fault to be found by any one was that this month's installment of "The Triangle" ended at an exceptionally exciting moment. Miss Wright had charge of the picture section. A splendid reproduction of Henry Longfellow's flower garden and an equally fine snow scene were exhibited; also a picture showing how a garden is made by "a man down by Miss Wright's house."

The etiquette page containing "A few Don'ts for Young Women," was well handled by Helen Hester. Olive Terrell, Pearl Moulds and Blanche Melling had charge of the fashion department and if the ideas of these young women are to be carried out, no girl need worry about any new spring dresses. An interesting section for the children especially, was that of the nursery rhymes, by Harriet Hodgkin.

Of course no magazine is up-to-date unless it has a live advertising department and in this magazine this important department was in charge of Helen Scott, who showed great ability as a sales woman. Among the articles advertised were the very best brands of catsup, false teeth, talcum and insect powders.

CHAPEL NOTES

Mr. Fred E. Carter gave an inspiring chapel talk Thursday, April 4. Among other things he said that life is a race, in which we must be satisfied with nothing less than the best.

Two Philadelphia Quakers addressed the student body and faculty, April 11. J. Henry Bartlett who is the editor of the Philadelphia "Friend," mentioned some of the differences between the East and the West. He said that in the west there seemed to be a better understanding between the student and the faculty, than in some of the eastern schools.

George Vaux, Jr., the chairman of the United States Board of Commissioners of Indian Affairs brought greetings from Hartford College. After describing the Indian character and his mode of living, he made a very impressive plea for the U. S. Indian.

OH, WHAT A DIFFERENCE

there is in ice creams! In some you hardly know what the flavor is—the grain is coarse, there is nothing that suggests richness about it. Not so with ours—in flavor it is delicious, in grain the finest. In brick work the flavors are superbly blended into a delicious ice. Insist upon ours.
